WALKER BAY

Introducing the Generation 525

A better design. A better boat.

The Generation 525 is the result of countless hours of research, design and development. We designed this boat from the beginning to be superior in every way. From the Polyurethane Composite Micro Stringer System that results in a lighter smoother ride, to our proprietary jig and alignment system for better alignment and better handling, we've thought through every detail and then put our design through extensive testing to deliver a Deluxe RIB unlike any other.

Innovative Design. Superior craftsmanship. Unsurpassed Quality.

Most all RIB manufacturers use basic plywood stringers to support the hull and top deck, Walker Bay incorporates a Polyurethane Composite Micro Stringer System in the floor which is lighter, stronger than wood and results in a smoother ride.

Where typical RIBs may have an air cavity between the hull and deck, Walker Bay bonds the hull and deck together using a unidirectional glass and a polyurethane stringer grid bonding system. This absorbs the impact from wave chop, makes the hull stronger and lighter and provides permanent positive flotation.

When it comes to quality control, we sweat every detail. Distortion and misalignment in a hull contributes to poor handling and stress cracks. Walker Bay creates a straighter and better riding boat by incorporating a proprietary "jig and alignment" process for the joining of the main parts so stress energy is distributed efficiently for a better handling and longer lasting boat.

Generation 525 features

The Generation 525 will exceed your expectations in both function and comfort. Our attention to hull design and engineering along with more standard features have resulted in a truly world class deluxe RIB

Open layout, more room in the bow

Flip up bolster seat

Leaning post boarding handle

Retractable ski post (optional)

Deluxe Cushions

Console backrest cushion

525 FEATURES

- Console w. Passenger Backrest Cushion
- Hydraulic Tilt Steering System
- Deluxe Steering 13" Steering wheel
- Port and Starboard Boarding Steps
- Removable Leaning Post Boarding Handle
- Driver's Side Flip-up Bolster Seat
- 5 Stainless Steel Cup Holders
- Heavy Duty Stainless Steel Towing Rings
- 6 Stainless Steel Handrails
- 4 Stainless Steel Pop-up Cleats
- 7 Stainless Steel Davit Lifting Points
- Low Profile LED Bow Light
- LED Courtesy Lights
- Fresh Water Shower (10G/38L Capacity)
- Deluxe Cushions
- Insulated Cooler Locker
- Recessed Teak Boarding Steps

OPTIONAL FEATURES

- Deluxe Boarding Ladder
- Retractable Ski Pole
- Bow Area Deluxe Sun Bed

525 SPECIFICATIONS

Length	17'2" / 525cm	Max HP	115HP/86kW
Beam	8'4" / 254cm	Recommended HP	90HP/68kw
Weight	1160Lbs / 527kg	Shaft Length	Long
Maximum Persons	10 (1650Lbs / 750kg)	Fuel Capacity	32G / 125L
Maximum Load*	2750Lbs / 1250kg	Top speed	44mph/ 38.25kt

*Persons, Motor, Gear
