

VENTURE

The World's Most Versatile 13' Tender

Designed for the express cruiser who wants to ski, tube, fish, cruise around locally, entertain, and explore in the most comfort and style of any 13' tender.

Luxurious and spacious, the Venture 13 is an icon of exceptional design. The comfort, function and style of the Venture 13 comes from the innovative console design. The tilt steering is recessed into the dashboard to preserve the superior ergonomics and comfort of the Venture line. The aerodynamic console preserves the boat's aesthetic balance while giving it the sporty profile express cruisers expect when speed allows you to get to your destination sooner to make the most of your time there.

The design of the Venture 13 embodies the distinctive use of innovative materials and structures. The hull was designed to meet various demands including keeping a smooth ride in a 13' boat while at speed. The Venture 13 hull is produced using vacuum infusion or resin infusion process. This technique creates a stronger and lighter hull. This infusion process allows us to keep a weight that is suitable for express cruisers while maintaining its abundance of features, making it the most versatile 13' tender in the world.

Luxury means comfort. Comfort on the Venture 13 comes from a wide rear seat, thick cushions, more leg room for the driver and passenger as well as a hull designed to cut through chop and keep you dry.

Designed to entertain, you can choose your activity on the Venture 13 such as snorkeling, fishing, diving, tow sports, and use the freshwater shower and storage to cool off and store your gear until your next run. Explore from sandbars to lakes with the Venture 13. With a ski pole, ladder for re-boarding, speakers, beverage holders, and a dashboard designed to fit the technology you need, your adventures are limitless.

WALKER BAY

— 25 YEARS —

VENTURE 13

Features

- Aerodynamic console with recessed tilt steering and flush mount throttle.
- Console dash accommodates an extra-large 9" chartplotter, gauges, stereo and VHF.
- Real practical boarding steps aft, port, starboard and in the bow.
- 2 console base and seating options. The Venture is available with a choice of 4-seat pedestal or 5-seat bench console bases.
- Integrated folding ladder for easy reboarding after diving, snorkeling, skiing.
- Flip-up bolster seat for 3 driving positions.
- Entertainment features: 5 stainless steel cup holders, built in cooler, room for a stereo control on the dash.
- More storage: fuel and shower water tanks built in under the floor so they don't take up valuable gear storage space.
- Deep modified variable V hull with large lifting strakes give an ultra smooth dry ride with no need for trim tabs and takes higher HP engine to venture further.
- Genuinely comfortable bow seating.
- 4 lifting point locations to accommodate different lifting systems and keep the pick point as low as possible.

Options

- Available in three color accent options; Ocean Blue, Carbon Black and Dark Grey.
- 4 flush-mount stainless steel rod holders (which also double as mounts for accessories like board rack for water sports).
- Heavy duty, flush-mounted telescopic ski pole.
- Fresh water shower.
- Gray or Mocha EVA Steps and Floor kits.
